SERVICE MAINTENANCE REQUIREMENT

KEEP YOUR VEHICLE IN THE BEST CONDITION

Your vehicle is strongly advisable to carry out the service maintenance at our authorized workshops which listed in our website www.ewp2u.com.my in accordance with the service requirement of this warranty which is

- **7,000kms (4,350miles) / 3 months whichever comes first for vehicles using semi-synthetic engine lubricants.**
- **10,000kms (6,250 miles) / 6 months whichever comes first for vehicles using fully-synthetic engine lubricants.**

The vehicle must be serviced within 500kms either side of service mileage or 10 days either side of due date to maintain the validity of your warranty.

Warranty Overview

Service Records

Keep all service receipts. Ensure the workshop records the service date and mileage on these receipts.

Warranty Repairs

Repairs involve either fixing or replacing damaged components using used, reconditioned, or aftermarket parts.

What is Covered

Warranty claims are limited to the parts and labor specified in the "What Parts Are Covered" section.

1

Servicing

We recommend servicing your car at authorized panel workshops in accordance with the service maintenance requirements in your E-Warranty Cover.

2

Claims

Warranty claims must be processed at authorized panel workshops only.

4

Betterment

If new genuine parts are required (due to unavailability or car owner's request), the warranty covers up to 50% of the cost.

6

What is Not Covered

Items such as wear and tear, miscellaneous parts, serviceable items, modifications, coding, programming and parts not listed in the 'What Parts Are Covered' section are excluded from warranty coverage.
